

See how many of the following birds are at the Lakeside Nature Center bird feeders, driving home in your car, or even in your own backyard! Write in the date you saw the bird, and the location.

Northern Cardinal

Date: _____

Location: _____

Blue Jay

Date: _____

Location: _____

Mourning Dove

Date: _____

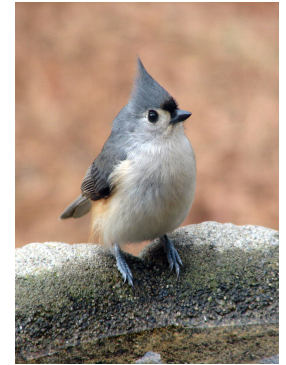

Location: _____

Tufted Titmouse

Date: _____

Location: _____

House Sparrow

Date: _____

Location: _____

Black-capped Chickadee

Date: _____

Location: _____

American Goldfinch

Date: _____

Location: _____

American Robin

Date: _____

Location: _____

More Ideas on Birdwatching

- As you get more interested in watching birds, you will need a pair of binoculars so that you can see the birds better.
- Look out of your car window for birds. You and your family can test each other on what types of birds you see!
- Attract birds by providing them with the things they need to live: food, water and shelter. Keeping your cat or dog in the house also keeps birds safer.
- Some birdwatchers are also bird listeners. They can identify many birds by the songs they sing. Start by listening to robins and cardinals.

Have Fun!!
