

SCAT RAP

Chorus

It starts with an "S" and ends with a "T,"
It comes out of you and it comes out of me;
I know what you're thinking, it could be called that,
But be scientific and call it "Scat."

You're walking in the woods and your nose goes "ooh,"
You know some critter's laid a scat near you;
Now don't go screaming and lose your lunch,
If you picked it apart, you could learn a bunch
About Scat.

Chorus

If you park your car near the woods or a field,
You might find scat on your windshield;
If parts of it's purple and the rest of it's white,
You just got bombed by a bird in flight
With Scat.

Chorus

If you want to find out what animals eat,
Just take a look at what they excrete;
Inside the scat are all kinds of clues,
Parts of the food that their bodies can't use,
That's Scat.

Chorus

It tells us what they eat and it tells us who they are,
And that's what we know about scat so far;
So if you want to find out what animals are around,
Take a look at the scat on the ground,
We're talking Scat.

Chorus
